

FAASTeam presents:

IFR Round-Table: Alternate Airports

Our IFR Round-Table series brings together advanced and novice IFR pilots to share knowledge about particular aspects of instrument flight. Each session focuses on one small IFR procedure or topic area and we spend time talking through the various challenges, definitions, techniques, and safety issues in that topic area. This session: alternate airports. When are pilots required to file an alternate? What constitutes an acceptable alternate airport? What are the weather requirements at the alternate and when? Join SCFC CFI Adam Kelly for a discussion focused around all aspects of selecting and filing an alternate airport. He will review the relevant FARs and discuss how to select an alternate airport for your next instrument flight. As with our other IFR Round-Tables, instrument pilots and students are invited to bring their own tips and suggestions to the discussion. Presenter Adam Kelly is a flight instructor and regular safety seminar speaker at San Carlos Flight Center. He has been in love with aviation since he was a child, and comes from a family of accomplished aviators. He earned his Private Pilot Certificate in 2009 and in 2012 started pursuing aviation full time. Now he no longer works a day in his life. San Carlos Flight Center was voted Best Flight School in the US in
